Maybe even better than free.

We have no file size limit. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Just upload the file you want to share with your friends and we send you a download link to your file. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. It is also allowed to link to the download page from websites and communities. Unfortunately, we can't make that part free. Alternatively you can choose to share your download links on blogs, forums and social networking sites. This is easy, fast and reliable filehosting!
