Maybe even better than free.

If only we could, we surely would! On the other hand, using file can actually save you money. You decide who you want to share your files with. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. You don't need any special software installed to be able to download your files. Keep your files private, or send your download links only to friends or family. We have no file size limit. Just upload the file you want to share with your friends and we send you a download link to your file. Using file, you can circumvent those limits without paying to upgrade your team chat service. No account or credit card is required to get started. Alternatively you can choose to share your download links on blogs, forums and social networking sites. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. You can upload any type of file (movies, music, documents, images, zip files and more). Why pay storage fees for a file that you justwanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. Files can bedownloaded from any computer from our high speed servers. Any file in any format can be uploaded and downloaded for free. File is free to use with nogotchas and no hidden fees. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. Simply upload your file and sharethe link. Our service is completely free for everyone. So try our free and simple filehosting service now. It is also allowed to link to the download page fromwebsites and communities. Unfortunately, we can't make that part free. You can give this download link to your friends by mail or instant messenger. There areno restrictions on the number of times a file can be downloaded. filehosting provides an easy possibility for you to send large files to your friends. The cost ofthat data transfer is covered by your internet service or the data plan on your phone.
